Question 1	
Correct	
Mark 1.00 out of 1.00	
Ivial K 1.00 Out Of 1.00	
Which of the followi	ng cannot be prevented through firewall, antivirus, antispyware, antigrayware, encryption, and domain authentication
techniques?	
Select one:	
<ul><li>a. Social engi</li></ul>	neering✓
b. Denial of se	ervice attacks
oc. Physical at	tacks
	launo
od. Spamming	
The correct answer	is: Social engineering
Question <b>2</b>	
Correct	
Mark 1.00 out of 1.00	
What are the two or	iginal types of authentication used in wireless network? (Select two.)
Select one or more:	
a. TKIP	
b. WEP	
c. Domain	
☑ d. Shared ✓	
☑ e. Open	
f. Local	
g. AES	
h. WEP	
The correct answer	s are: Shared, Open

Question 3 Correct Mark 1.00 out of 1.00
What network environment has centralized servers for authentication?  Select one:  a. Ad hoc  b. Domain  c. Local  d. Infrastructure
The correct answer is: Domain
Question 4 Correct Mark 1.00 out of 1.00
After installing a free antivirus program from the Internet, the Windows 7 computer has tons of pop-ups that appear. So many pop-ups are apparent that the computer cannot be used. The application  Select one:  a. Is malware  b. Had the application process disturbed by a power outage  c. Requires firewall adjustments  d. Needs to be reinstalled
Question 5 Correct
Mark 1.00 out of 1.00  What is the minimum number of characters a password should be?  Select one:  a. Eight  b. Five  c. Six  d. Seven  e. Nine
The correct answer is: Eight

What keystrokes are used to lock a Windows computer?  Select one:  a. Citt+Alt+Del  b. Shift+Ctrt+F8  c. Alt+F8  d. F1  e. Cirt+Alt+Esc  The correct answer is: Ctrt+Alt+Del  Dieston 7  Correct  Mark 1.09 out of 1.09  In which scenario would a rooffet be used?  Select one:  a. To remotely wipe a smartphone  b. To detect wireless networks in the area  c. To gain unauthroized access to a wireless network or access point  d. To gain administrator access to a Windows 7 computer  The correct answer is: To gain administrator access to a Windows 7 computer  Constant 8  Currect  What file system provides the best Windows security?
